

Queen Pam Rules Activities

ent The bonfire is sponsored by the Freshman class.

The game is scheduled for 1:30 p.m. Saturday at the Edgar Brown Memorial Stadium, where the Hawks will face the Yakima Indians. The Queen and her Court will appear at half-time. The new mascot, Nike, will be on display at the game also.

A reception after the game will be held in the Emerson School, above the stadium. Alumni, faculty, parents, and

students are encouraged to attend.

Highlighting the homecoming events will be the dance, beginning at 9:00 Saturday night. The theme chosen for the dance is "Autumn Victory." The dress for the dance will be semi-formal. The cost will be \$1.50 per couple.

The success of Homecoming depends, for the most part, on participation by the students. Everybody should take part in some of the activities to make this a great Homecoming.

Queen Pam

The pretty, blue eyed, blond Sophomore, Miss Pam Gardner, is the queen of the Sixth Annual Columbia Basin College Homecoming.

Miss Gardner is a Psychology major with future plans of either airline work or psycho-therapy. She is also Sophomore treasurer and program and ticket chairman for Homecoming. In her Freshman year she was Homecoming princess and cheerleader.

Unfortunately Queen Pam will be leaving us after winter quarter for the salty air of San Francisco.

Queen Pam will be escorted to her throne by Ray Amstadt.

BONNIE GREEN

"I feel that I have finally accomplished something," said Miss Bonnie Green. And hasn't she? As a matter of fact all these beautiful young ladies have.

Miss Green, a Frosh Home Ec major, graduated from Columbia High School in '61. She is very active in her church groups. Miss Green will be escorted by Larry Gilpin.

MARSHA RIEMERS

"The best birthday present I could ever have received," said Miss Marsha Riemers, as she heard that she was sophomore princess.

Miss Riemer is a Sociology major with plans to attend Central Washington College and the University of Washington. Her ambition is to become a social worker.

Miss Riemers is sophomore class representative and on the decorating committee for Homecoming. In her freshman year she was a songleader. Buck Martin will escort Miss Riemers.

KATHY LAPP

"I didn't think I had a chance," said Miss Kathy

Lapp as she heard that she was a freshman princess.

Miss Lapp graduated from Pasco High School in 1961 and is majoring in Business Administration. She is planning to attend WSU next year. Miss Lapp's escort is Lloyd McCoy

JUDY GUYER

"I couldn't believe it," said Miss Judy Guyer as she heard that she was a sophomore princess. Miss Guyer graduated from Pasco High School in 1960 and is presently majoring in Sociology with plans to attend Oregon State next fall.

Miss Guyer will be escorted by John (Big John) Miller.

November 8 Is Last Day For Withdrawal

The last day in which a student may withdraw from a class without having recorded on his transcript the grade he is receiving at the time of withdrawal is Nov. 8, according to the college catalog. Mid quarter is Nov. 1.

Letters To The Editor

After reading last week's article on the Activity Council meeting of Oct. 4, I have come to the conclusion that some reporter on the Collegiate staff has devoted his time to downgrading the student government here at CBC. Instead of trying to promote the interest in activities, he has ridiculed those who participate. Due to the absence of an activity period, meetings must be held at times convenient for few and inconvenient for many. Therefore, it is hardly in good taste to ridicule the efforts of those who are interested in CBC's activities.

The Activity Council meeting held on October 4 was not a secret. An announcement appeared in the bulletin. It was called to order shortly after 1:00 P.M. as revealed in the minutes which are available to those who care to contact either Michele Briece or myself. We have not been contacted about these minutes as of this date.

Again may I state that the cynical attitude of such a careless reporter can only hinder the development of CBC's extra-curricular activities. I hope that he is the only one with such a view.

Respectfully,
Veronica Colby
Activity Council President

* * *

Sir:

Your editorial of last week is the very epitome of yellow journalism. Your attacks on JFK's policies are the most childish misrepresentation of facts I have ever seen in print. This letter replies to the points you so consistently and thoroughly muddled.

On your first point that was ranting about the ineptness of the Peace Corps, it offered absolutely nothing more than vague denunciations of an innocent girl. Like the communists, are you too hopeful that the Peace Corps will be eliminated?

As to your second big blooper, concerning planes to Yugoslavia, undoubtedly you failed to proofread your statements for coherent sense. Since 1959, Eisenhower had been approving sending planes to Yugoslavia as a friendly move to better our relations with Tito. Perhaps though, you disapprove of our country making any further attempts toward friendship with other countries.

Furthermore, I do not understand why you reason that the people or Congress should be shocked by this particular foreign aid deal with Yugoslavia. Foreign aid to individual nations is carried out at the will of Congress by the executive branch from funds allocated by Congress. Mr. Eisenhower and Mr. Truman both handled aid to countries in the very same way. An example is the aid given to Castro by Eisenhower in 1959 when we increased Cuba's sugar quota.

Now let us consider your howls about the U. S. selling obsolete planes to Yugoslavia. Instead of its being a bad reflection on the U. S. as you said, it was a favorable reflection. In fact it was a very timely move. The sale came during the time of Tito's neutralist meeting when it was especially worthwhile for us to try to show our willingness to become his friend. In turn then, there was an excellent opportunity for us to gain much favor with other neutral nations attending the meeting.

On your third point concerning a news blackout by the administration on the planes deal, you were wrong in saying that the public was not told of the plan. This news was fully given in the newspapers at least two weeks before the transaction. If Congress then had disapproved, it could have reconvened and stopped the move.

Another example of how far off base you were with the facts is the postal card incident in Nigeria. You said that the U. S. Government had withheld information on the incident from the public. In what way? You certainly gave no proof whatever of this—other than your personal babbling.

To sum it up then, I for one did not fall for your half-crocked criticisms. There is one thing for sure, though—our strength as a nation will be in trouble if certain news people keep trying to make a name for themselves by heedlessly tearing down others.

—Ken Williams

Julia Whitby Places Third

Placing third in the women's impromptu division at the Centralia Invitational Debate Tourney was CBC sophomore Julia Whitby. The tournament was held Oct. 20-21 at Centralia College.

Other CBC students attending the tourney were freshmen Ed Thompson, Tom Mills-paugh, and Douglas Olberding; sophomores were Micky Briece, Bonnie Clary, and Dennis Turnbull. Mr. Lane, advisor, accompanied the students.

Twenty-one different schools were represented at the tournament included the University of Washington, University of Oregon, Washington State University, Portland State, and several Northwest junior colleges. Out of these 21 schools CBC ranked tenth in points in individual events.

At least one more tourney is planned for this fall. Later in the year plans will be made to attend the Phi Rho Pi national convention to be held next spring.

CBC Pep Band Concert Band Is Meeting

By Dee Cole

In today's world of fast-moving engineers, scientists, and mathematicians, there are still a few hardy souls who dare to be different. Twenty-nine of this species comprise CBC's pep and concert bands. Nine members are returning sophomores, 20 are freshmen; several are attending CBC on music leadership scholarships.

The pep band has already performed at two home football games this year. Plans for the pep and concert bands include a Christmas concert tentatively set for Dec. 10; a trip with the basketball team, and performances at most of the home basketball games.

Again this year we have a good dance band. This smaller group is composed mostly of pep band members, but it plays dance tunes and jazz. They plan to bring a well-known jazz artist here sometime later this year. Mr. Fitzpatrick, band director, is currently negotiating with a jazz trumpeter from the East. In late April or May the dance band with additional singers and dancers will form a road show and travel to neighboring high schools and possibly other J.C.'s.

The dance band meets from 11:00 to 12:00 and the pep band from 12:00 to 1:00 on Tuesdays and Thursdays. Mr. Fitzpatrick wants to encourage any student with musical background to try to fit this worthwhile class and activity into their schedule. He remarked that he knows there are many capable and talented musicians now attending CBC and he hopes to see student interest develop a fine band.

New Math Instructor Margaret Miquelon Many Varied Interests

By Richard Dykes

Piloting, sky jumping, scuba diving, advising the Chess Club, teaching mathematics, and having one's family named for an island—do these apply to anyone you know?

Miss Margaret Miquelon, a petite whirlwind of liveliness teaching mathematics at CBC, has logged over 300 flying hours and says her greatest thrill was participating in the Women's Transcontinental Air Race last year. She and Pearl Laska of Fairbanks, Alaska piloted a Cessna 150 to place 37th in a field of 81. They left Los Angeles, Calif. July 8 and landed in Wilmington, Del. July 12 — 45 minutes before the deadline.

Becoming interested in sky-diving this year, Miss Miquelon joined the Spokane branch of the Parachute Club of America and has logged one jump. She is one of the four women jumpers in the Pacific Northwest.

Another new hobby of this black-haired lady is scuba-diving. She is well qualified as she was a swimming instructor at Kennewick for four summers. Miss Miquelon has the full suit for scuba-diving and has been down 25 feet at Hayden Lake in Spokane.

After receiving her B.A. in math from Nebraska Teachers College in Wayne, Nebr., Miss Miquelon went to Miami University of Ohio for four summers and got her M.A. in aviation education. One of the few

persons in the state with such a degree, she says, "Aviation Washington is on but it is still far from a state whose industry is aviation."

Miss Miquelon and his six brothers, St. Cyr's of Miquelon, an island in the St. River. Gradually, was dropped and known as the Miquelon family. Confessing to never been to the island named for, Miss Miquelon she grew up near Iowa.

Before coming to CBC, Miss Miquelon taught at Kennewick High School, and was a teacher at Kennewick in addition to teaching at CBC.

CBC Hawks Throttle Strong Everett Squad

Conference play ended last Saturday night as CBC defeated the rugged Everett Trojans 28-13 at Pasco.

The Trojans got past the Gang Busters defense to score two TD's in the last quarter of play. They gained a total of 255 yards, 172 overland and 83 through the air, thus making them the toughest team CBC has faced all season.

For the Hawks end Dave Morton, it was the greatest game of his college career. He caught six passes for a total of 101 yards and two of them for touchdowns. He gained all but 45 yards of the total passing yardage for the Hawks, which was 146 yards. Dave's six receptions boosted his season total to 20, breaking an old school record of 19 set in 1958. His two TD plays gave him four for the season end and school record.

CBC drove 68 yards in seven plays for their first touchdown in the first quarter and then waited until the final two minutes of the second period to score two more TD's to lead 21 to 0 at half time.

Bud Hare boosted his record season rushing total to 698 by netting 74 yards, 61 of them in four plays to set up the first Hawk touchdown. Ray Amstadt, who kicked four conversions for CBC, one of which was 22 yards out; drove over for the score from the two yard line.

After half time the Everett Trojans played ball, seemingly ignoring the fact they were behind in 17 plays for their first touchdown, marking the first time any team has sustained a long drive against the "Gang Busters." A bad pass from center spoiled their extra point try making the score 21-6.

The Hawks bounced right

back as Dick Weise fired a pass to Morton on the EJC five yard line and Dave carried the pigskin five yards for the TD with 5:43 gone in the fourth quarter.

"Big John" Miller stole the ball from Dennis Sorweide on the CBC 13 and the Hawks started back up the field in hope of a final TD.

Things were spoiled as one of Dick Weises' passes was intercepted by Gilbert who ran it back to the CBC 10.

Tom Hulett hit Ron Gilbert in the end zone four plays later for EJC's second TD and the final touchdown of the game with 30 seconds remaining to play.

X Country Team Goes To Spokane

By Don McGee

The Cross Country team tours to Spokane tomorrow for the Inland Empire AAU Championship meet at the Down River Golf Course. Starting time will be at 11 a.m.

Along with CBC, there are only two other JC in Washington that has a cross country team; Yakima JC and Clark JC of Vancouver. Along with these three colleges will be the frosh and varsity teams of WSU, Gonzaga, Eastern, and U. of Idaho. Representing the high schools will be: John Rogers, Snohomish, Wenatchee, Shady Park and Gonzaga Prep School.

Cross Country coach Robert True will be looking towards the strong man on the team, Frank Knox, along with John Gregory, Don Green, and Dave Green and the rest of the team to bring home the trophy.

Turkey Trot Nov. 22

Like to Turkey Trot?

On Nov. 22 (day before Thanksgiving) there will be a two mile cross country race on campus for any CBC student, boy or girl, who wishes to participate.

Last year there were 42 participants in the Turkey Trot. This year promises to be even bigger.

Free turkeys and turkey dinners will be awarded to the winners. All you need is running equipment and some ready muscles, so get on the ball and get in shape.

Hawks Clinch First Place

The Columbia Basin Hawks clinched their first football conference title by defeating the Lower Columbia Red Devils 59-0, at Longview Oct. 21.

It was the Hawks fifth shut-out of the season and sixth consecutive victory. The win enabled the Hawks to take the title. They set new records in rushing yardage, total offense and a new first down record. Also this was the most points ever scored by a CBC team. Bud Hare, who was used for only 12 carries, netted 141 yards and broke the school's old rushing record held by Bob Wikes in 1959, with a total of 624 yards. The old record was 564 yards.

"Big John" Miller started things rolling for CBC as he picked up a fumble by Lower Columbia and ran 27 yards to score the first TD of the game. It was the Red Devil's first play from scrimmage. The Hawks added two more touchdowns in the first period and picked up a single score in the second period to make it 28-0 at half time. They scored five more TD's after the half.

Touchdowns were also made by Dave Morton on a 29-yard pass from Dick Weise. Dennis Allen on a 15-yard run, Dick Weise on a two-yard sneak, and Bud Hare on a blazing 21-yard run. Dick Washburn was the only CBC player to make more than one touchdown, on runs of 60 and two yards. Don Glover, a freshman from Walla Walla, scored on a 26-yard reverse play. Glenn Weitz scored the final touchdown of the night when he intercepted an LC pass and ran 39 yards for pay dirt. Ray Amstadt gave his leg a good work out by kicking five extra points.

Ski Club Meets Today

By Linda Lubbens

We still need skiers to join the ski club. At the first meeting and sign up, there were 25 names. I urge you, who are interested in skiing, to sign up before ski season starts.

Students who don't own skis, poles, or boots may rent them for \$2.75 a weekend. The fee for gas and transportation such as the rope tow will cost about four feet deep so this lunch to save money.

The snow at White Pass is around four feet deep so this means skiing will begin (maybe) next month. All of you skiers keep your fingers crossed for a cold, snowy winter!

Those who haven't signed up, leave your name in the Guidance Center between 12 and 1 o'clock any day.

There is a Ski Club meeting Friday, Nov. 4 at 11:00. Look on the poster in the lobby to find the place. Bring dues! (\$3.00.)

DeSalvo Says

Face: The CBC Hawks will be taking on the Yakima Trojans tomorrow afternoon here in Pasco. It will be the Hawks homecoming game and should be a good one to see. Although Yakima finished the season in sixth place, they are from a win over the Wenatchee Black Knights in their homecoming game last weekend. Larry Gilpin says, "it will be a tough game but I don't think they will score." At that, I say CBC by 14.

Wenatchee: Olympic travels to Wenatchee for these two home games of the season. Both teams should be up for it. It will break a fourth place tie between the two. Wenatchee was beaten by Yakima last week 19-12 and Olympic by Grays Harbor 28-20. This is a tough game to pick. I wouldn't be surprised at the outcome. I will go with Olympic by 1.

Grays Harbor: Grays Harbor had a three game winning streak broken by Olympic last week. They will be taking on the CBC in a non-league game and should be up for it. I know very little about Fort Lewis, so I'll pick Grays Harbor by 14.

Everett: Everett takes on the Western Washington College Trojans. Everett was downed by CBC 28-13 in their last game of the season which dropped the Trojans into a two-way tie for second place with Grays Harbor. Although this is a non-league game Everett should be ready for it. Everett by 1.

Newberg, Oregon: Lower Columbia travels to Newberg to play Fox College. The Red Devils won their first game of the season 27-0 against George Fox last week and will be looking to win Number Two. This is also a non-league game; LC by 14.

Other college games: University of Southern California at Washington by 12. Washington State U. at Oregon State by 14. Oregon at Stanford; Stanford by 8. University of Pacific at Idaho; U. of P. by 10. University of California at UCLA; UCLA by 12. Arizona State at San Jose State by 8.

A couple looks at the Hawks Bone Yard display in the college administration building. The Hawks '61 season has been buried, with space reserved for the Hawks of the Yakima JC Indians on Saturday afternoon.

Washburn Wins National Merit

Ray Washburn, former CBC pitching ace, was named to the Class AAA all-star baseball team for 1961, by the nation's baseball writers coast to coast.

The honor was bestowed on Washburn for his fine year with Charleston of the International League. This also earned him a chance to pitch for the St. Louis Cardinals of the National League, where he won one and lost one.

At Charleston, Ray had a record of 16 wins and nine losses, and topped the league with a 2.31 earned run average.

Snack Shack Opens Business Sizzles

By Bob Travis

Since its opening last Wednesday, the Snack Shack is doing a sizzling business in short orders.

And sizzling isn't all that happens either. There's even a little smoke in the eyes of the help.

The food is good for ravishing appetites and for you fellows, some of the help is pretty ravishing, too. Just to make sure you aren't poisoned, the girls behind the counter manage to get their fingers into their work (for testing purpose, of course).

This thriving little business may do well, despite its overwhelming number of customers. Although they seem a little slow, the girls make sure you get your orders.

Many students feel that it will be as good as, or better, than the cafeteria. It will be especially beneficial to those who don't have a full hour for lunch, or who don't have 60c with them every day.

Some of the comments about the Snack Shack are as follows: "It's all right" (Judy W); "It's the greatest thing since Prohibition" (Anon).

MAN VS DINOSAUR

(ACP) — Man may well go the way of the dinosaur, agrees the Lass-O, Texas Woman's University, in commenting on President Kennedy's United Nations speech.

The daily paper says in an editorial:

When the President challenged the Soviet Union to a 'peace race', he did so in order to save humanity from a fate similar to that of the mammoth creatures of centuries ago.

"Unless man can match his strides in weaponry and technology with equal strides in social and political development," the President said, "our great strength, like that of the dinosaur, will become incapable of proper control—and man, like the dinosaur, will decline and disappear."

A look at Webster's dictionary reveals just how apt the President's comparison was. The definition includes the fact that the dinosaur advanced in both size and structure, that some of the 'family' were carnivorous while others were more congenial and ate only vegetation, and that the reptiles varied in size from 2-90 feet.

As the world changed and the dinosaur found itself more and more without food, great battles must have raged among some of the giants for possession of what remained of their prehistoric world. Eventually, through the changes in the still-forming world and the great battles, the "terrible lizards," as the Greeks called them, disappeared.

The brain capacity of a dinosaur was much smaller than that of man. And if world leaders accept President Kennedy's "peace race" challenge, mankind will prove its superiority.

AWS Officers Are Elected

Freshman Carole Anderson and sophomores Linda Lubben and Pat Shelton were recently elected as new AWS officers. Carole will serve as secretary and Linda as treasurer with Pat acting as ASB representative. Chosen last spring were president Carol Roddy and vice president Gladys Faulds.

Voting for the new officers took place last Wednesday, Oct. 18. Election results were announced that afternoon at the AWS tea. The annual tea was held in the Student Lounge with Marcia Reimers serving as chairman.

Association plans for the near future include handling the sale of "mums" for Homecoming and arranging the afternoon Homecoming tea.

Freshman Speaks

By Bob Travis

Can organization come to chaos? We certainly hope so. If not, then the freshman class is going to be in a bad way.

We have a feeling that there is going to be a lot of freshmen that won't make it through the year. Either that or someone had better get us a larger place to hold our meetings. About 30 of the class had to stand during the procedure.

Does Pasco have a majority of the students or does Pasco have a majority? So it seems, since half of the Homecoming Royalty candidates are graduates of Pasco High. Now, what gives! What happened to all the good looking girls from Kennewick and Richland?

During the meeting an escape from all our built up tensions was brought to view. This was the Freshman Bonfire, which will be held on Friday night, Nov. 3, 1961. At this fire, we, the frosh of CBC, can set fire to anything that will burn. We hope that none of the teachers are around and that the building will be kept locked. I don't believe any teachers or school buildings have been lost in this manner for quite a few years.

Thanks to the freshman there will be a hot time on the old parking lot that night.

Russian Course Is Given In Evenings

For the first time in the history of CBC, a foreign language is being offered that is not familiar to the usual course offerings in foreign languages. Russian is being offered in the extended day school program each Monday evening from 7 to 10 p.m.

The course is being instructed by Mr. Albert Vandenberg of Richland. A total of 14 students are presently registered, according to Mr. Vandenberg, with two students to complete final registration.

Vandenberg is presently an instructor at Columbia High School in Richland, where he instructs U.S. History and Government. He holds BA degrees in Russian, Geography, and Education. He has studied at the University of Washington and the Russian Institute, as well as Harvard University.

Mr. Vandenberg mentioned a few words in Russian merely for information. Some of these were "Cpasebo" which means "thank you"; "Dobrya Dyen" which means "good day", and "Do Svedaneya" which means "good-bye."

The Russian course, which is a beginning course, will be held for 24 weeks, ending sometime in May. Mr. Vandenberg says that he is teaching the course to keep in touch with the Russian language and also because he finds work with adults an interesting change from his usual duties.

Kennedy Draws Reps At GOP Homecoming Dinner

Job Trends Are Listed

By looking back we can sometimes do a better job of planning ahead.

A recent edition of the Occupational Outlook Handbook available in the CBC library provides the following information regarding job trends.

Generally, farm employment declined further and there was a shift from goods production to service production industries, and from blue collar or manual occupations to white collar and service occupations.

About four-fifths of the gain was in State and local governments, trade, finance, and services combined. Most of the first were in teaching.

Employment in manufacturing dropped considerably during 1960 with a third of this loss in the primary metals industry (mainly in steel). Other losses were in machinery, lumber, textiles, and apparel. Printing and publishing and chemicals were the only major manufacturing industries that reported gains over the year.

Some of the unemployment reflected not only the business slide, but also longer term industrial changes. For example, railroad and mining employment continued their long-term down trends. Aircraft manufacturing lost more than 200,000 jobs between 1957 and 1960 largely because of shifts in defense policy resulting from the development of military missiles.

The odds in favor of job security are understandably greater in the areas expanding at a rapid rate: education, distribution, finance, public administration and the field of personal, professional, and business service.

Even in manufacturing industries, where employment has varied sharply during the last decade, some industries showed a general tendency toward growth: electrical machinery, chemicals, printing and publishing, and paper. Some of the growth in these industries resulted from technological changes which reduced employment in others.

Another notable characteristic of the changing American job market has been the tendency for white collar employment to grow steadily even in industries which have been declining or showing sharp fluctuations in total employment.

Your CBC library, the guidance center and members of the college staff are valuable sources of occupational information.

—Mr. Haas, Guidance Officer

ALTERATIONS!

Across the road from CBC
1915 West Jay—Apt. C
MRS. SAYLOR
Phone LI 7-2270

A testimonial box honoring Washington Republican Congress held Tuesday, Oct. 10, at Pasco High School gym.

The featured guest was Catherine May, congressman from the fourth district. The other representatives present were: Tom Pettit (sixth district), Jack Wells (seventh district), Thor (eighth district), and an (fifth district). May was highly lauded by her colleagues for the work she took on contrary to issues brought before the house.

In her talk Mrs. May out an appeal for the citizens to throw off the yoke of apathy and to take an active part in our national life and its position in the world. She called on the citizens to participate in government and not just look on.

In their talks the congressmen strongly urged President Kennedy's position on foreign aid money. Tolley that Kennedy is on foreign policy and falls the United States into extreme danger. He said that this is not concession or compromise, but a strong recognition that the U.S. stop of food stuffs to Soviet Bloc and Cuba condemned the wild of foreign aid approach such as the \$20-billion. Kennedy has promised American countries next ten years.

Pelly revealed that though diplomatic are severed, Cuba is a large amount of the U.S. through the door—Canada. Strickland said, the U.S. military power in and that the missile after Kennedy was elected said that it would take what greater power U.S.S.R. to subdue the
